---	---

Dear Sir/Madam,

Sub: Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations")

This is to inform that the Company has been granted a patent in India, which was earlier granted to the Company in the US, strengthening the overall IP portfolio of the Company.

The patent subject area is "System for Monitoring and Integration of One or More Intelligent Conversational Agents". This patent creates a mediation/monitoring layer that evaluates and integrates multiple intelligent conversational agents / agentic platforms into a unified, trust-score-driven system. By continuously assessing agents based on behavioral intelligence, past performance and privacy-controlled sandbox evaluation, it ensures that only verified and high-performing agents engage with consumers across agentic/autonomous intelligent connected devices (AICDs).

This grant extends Affle's data distillation and fraud intelligence capabilities to the agentic AI layer, ensuring only trusted and verified intelligent agents engage with consumers across AICDs. It further builds upon our previously granted IPs, enhancing the quality of our conversion-driven marketing for advertisers and reinforcing the efficiency and future-readiness of our AI-powered Consumer Platform Stack. Our IP portfolio stands at 18 unique patent grants out of 39 total filed patents, with around 300 enforceable patent claims as on date.

Submitted for your information and records.

Thanking You,

Yours Faithfully,

For Affle 3i Limited

(Formerly known as Affle (India) Limited)

Parmita Choudhury
